# 1. ABOUT

## 1.1 About ALIM

ALIM was founded in 2021 by Dr. Ammaar Saeed with the aim to provide Islamic and academic education through a way that would be easier with similar manner, discipline and curriculum that students receive on offline campus. The development of ALIM took about two years and was launched in 2021.

ALIM's aim is to build future scholars and professional students of knowledge of Islam. The power of authentic knowledge is a protection against division in Islam and from misguidance. Islam teaches not to divide and ALIM's system of education based purely on Quran and authentic traditions with providing academic education with partial curriculum based on Islamic academic universities. ALIM has planned, developed, designed and structured in a way with the intention that anyone with basic knowledge of English and computer can utilize the system.

According to students demands and by the decision of advisory committee, ALIM will continue making changes that would be more beneficial to students by adding and offering a wide range of academic programs that would build student future with a Islamic degree.

## 1.2 Message from Founder

Assalaamu Alaikum

اَلْحَمْدُ لِلّٰهِ رَبِّ الْعَالَمِيْنَ

Back around 2007, when Allah guided me to become a practicing Muslim, my concept and purpose of life changed from duniya towards Akhirah. I had a dream and vision to develop a system of education that would benefit humanity with pure sincerity to please our Creator and forward the mission of Prophet ﷺ to believe and worship One God by following the teachings of the last Messenger from God, Prophet Muhammad ﷺ. After about fifteen years, I was able to accomplish my goal and a vision into reality, only by the Toufiq and will of Allah.

The time we are living in now, Islam has become very complicated due to divisions and sects in Islam. Not only non-Muslims as well as Muslims with a basic knowledge of Islam are getting misguided into divisions by following their sect leaders. Islam teaches to worship One God and adhere to the Sahih traditions of the Prophet ﷺ. ALIM's education system is built purely on Quran and Hadith, without following any particular sect's education system or following any group.

My aim and goal is to build strong foundations for the next generation and protection from misguidance by providing authentic knowledge of Islam.

May Allah accept, *Ameen*

~Dr. Mufti Ammaar Saeed~  
Founder

## 2. ABOUT

### 2.1 Mission Statement

*ALIM's goal is to build strong foundations of Islam with authentic traditional Islamic education. After completion, the graduates will practically be involved in communities and start their career, not just for career but to serve Islam and serve humanity with pure sincerity to please Allah.*

*We will make sure the students graduated, have started their own network or institution and coordinate within the communities to gather Muslims to present weekly programs in their local facilities.*

*The graduates of ALIM will be great, strong powerful leaders for the next generation.*

*~Dr. Ammaar Saeed~*

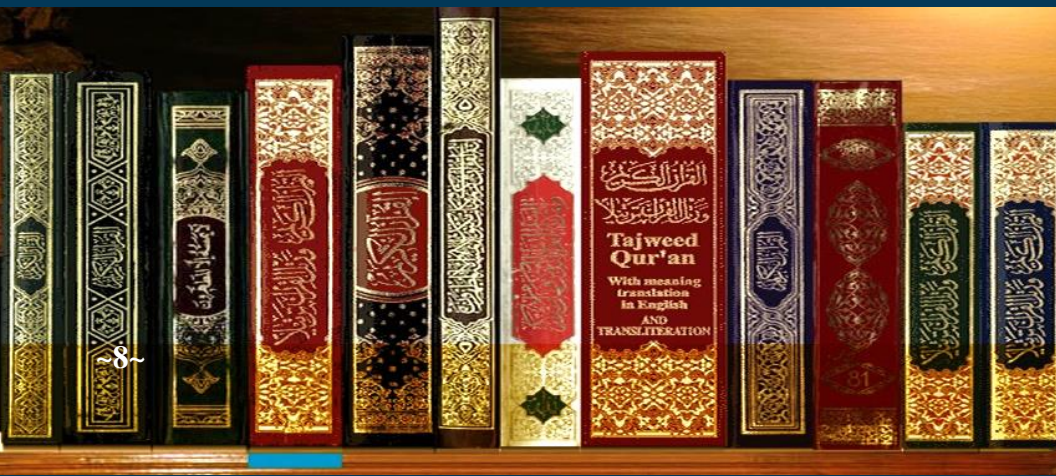

## 2.2 Why ALIM?

ALIM has developed strong courses, unlike seminary programs, but a strong foundation built from basic to advanced, and higher level studies up to Masters graduate programs in multiple majors offered. It requires too much hard work and research to pass the exams. Studying on ALIM is a challenge for those looking to build strong foundations and become leaders.

## 2.3 What Makes ALIM Unique?

Hundreds of free diploma courses.  
Multi Islamic majors offered  
PhD in Islamic studies  
Mufti/Darul Ifta Course program  
Affordable Tuition  
Flexible study time  
Installment Plan  
Certification Course

## 2.4 ALIM Highest Level

ALIM has planned special academic quality further education programs for those, looking to continue their studies to achieve Doctorate level in Islamic studies.

Once the MA thesis is approved by the committee and passed exams as required. The students will have a choice to choose a field they want to start, their PhD program or Mufti/Jurist program, that could take three to four years of research as in the matters of Jurist program could take a bit longer, due to there will be number of requirements of research, assignments and exams.

The programs are formatted in a way the students will graduate and lead their communities, independently as leader, imam, teacher, jurist and counselors to help humanity in need.

## 2.5 After Graduation

The first condition of receiving Islamic education is to understand the laws of The Creator by following the authentic education of Islam and then apply them on him/her self with pure intention to please Allah and continue with the mission of serving humanity. If the intention is to just receive the degree in Islam and call him/her self, a imam, hafiz or scholar, has a zero reward in akhirah and will have no blessings.

The programs are formatted in a way the students will graduate and lead their communities, independently, as leader, imam, teacher, jurist and counselors to serve humanity, is among the best deeds for reward, with pure intention to please Allah Alone.
